Work Experience

Market Analyst and Trader   April 2019 – August 2022
Self-employed | Trading Portfolio

- Executed trades totaling over **$600,000** across a diverse portfolio of stocks, commodities, currencies, futures, and options.
- Identified the most promising stocks for **long-term** investment by integrating both **Fundamental** and **Technical** analysis.
- For **Options** trading, implemented extensive technical analysis, including drawing strong resistance and support lines, confirming various indicators, analyzing investor sentiment, and identifying breakout patterns to determine optimal entry and exit points.
- Analyzed financial data, interpreted market trends, and made informed investment decisions, demonstrating strong market analytical abilities, **attention to detail**, and **critical thinking** skills.

Projects   *Analytics Portfolio*

FedEx Customer Sentiment Analysis
- Conducted data cleaning and preparation using **MS Excel** to ensure data was correct, consistent, and ready for analysis.
- Developed a **Tableau** dashboard to visualize insights, including sentiment breakdown, issue categorization, and sentiment scores.

Proof of Concept Data Engineering Project
- This project involves building a robust data pipeline to extract data from an **Oracle** database using **Talend**, storing it in **AWS S3**, and then loading it into **Snowflake** for data cleansing, validations, and transformations.

Core Skills

SQL, Microsoft Excel, VBA, Python, AWS, Snowflake, Talend, Tableau, Bloomberg, Portfolio Management, Financial Modeling, Risk Management
